

MORTAR RAKES

The Mortar Rake is designed to replace traditional methods of mortar removal such as powered mortar chisels and cutting discs. The rake is faster and less intrusive to surrounding brickwork and, unlike other methods, it is just as efficient for both horizontal and vertical joint clearing.

Please note that the cutters must be used together with an adaptor (10507234) and angle grinder.

ITEM NO.	DESCRIPTION	EAN	MASTER PACK	SHELF PACK
10507229	8,0 x 20/40mm, 3 cutter, (2 pcs.)	5706915072297	50	5
10507230	10,0 x 20/40mm, 3 cutter (2 pcs.)	5706915072303	50	5

M-SYSTEM

M-SYSTEM

HOW IT WORKS

1. Push the body backwards and start drilling.
New IRWIN® Carbide Tip Design ensures an easy start on fibre cement.
2. After drilling the hole pull back the pilot drill and fix the hexagon-screw with the same tool.
3. Special spring to keep the screw in place before fixing.
No more adapters or additional power tools required for roofing applications.
For more convenient and safer work.
