

## Bi-Metal Snap Blades

### BLUE BLADE™ Bi-Metal Snap Blades

The IRWIN® Blue Blade™ has revolutionized traditional snap blades with the introduction of Bi-Metal technology. Bi-Metal snap blades are produced through a patented process of combining two types of metal, spring steel and high speed steel.

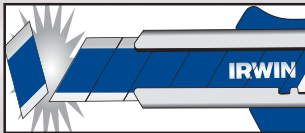

**3X**  
MORE CUTS\*\*

### Hi-Flex Blade

**Spring Steel** allows the blade to bend without accidentally breaking. It also ensures that the blade snaps cleanly on the score every time. Clean snaps reduce waste caused by jagged, unusable edges and reduce hazards that result from shattering blades.

Hi Flex Blade

Snaps Cleanly Every Time

### 3x More Cuts

**High-Speed Steel** delivers a hardened cutting edge that stays sharp 3x longer than traditional carbon blades\*\*. More cuts per blade increase productivity on the job.

### Convenient and Versatile

Each snap knife blade has multiple, sharp cutting points that reduce the frequency of blade changes. This makes them ideal for cutting everything from wallpaper to drywall, and for general use such as opening boxes. And with a stainless steel blade guide and a cast aluminum body, IRWIN snap knives can stand up to the tough conditions on the jobsite.

#### Stainless Steel Blade Guide

- Resists rust for longer life

#### Auto Blade Lock

- (Patent Pending)
- Secures blade

#### Solid Cast Aluminum Body

- Increases durability

#### Snap Blade

- 8 cutting points per blade
- Reduces frequency of blade changes

**ProTouch™**  
GRIPS

#### ProTouch™ Handle

- Secures grip
- Provides greater comfort

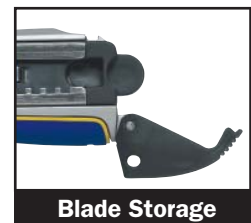

#### Auto Blade Load

- (Only available on ProTouch Snap Knife)
- Discharges used blades easily
  - Reloads new blade quickly

2086203

#### Hinged End Cap

- Stays attached during cartridge changes
- Will not get misplaced
