

PIPE AND TUBE BENDERS

With the IRWIN® Hilmor® range of tube benders, you can be ready to tackle any job with ease. All machines feature precision tooling to give a smooth, accurate bend every time across a large range of sizes.

GLM HAND BENDING MACHINE

1. FORMERS SUPPORTED ON BOTH SIDES

Prevents twisting under heavy loading

2. DURABLE, HARD-WEARING STEEL ROLLERS

Last much longer than aluminium

3. SOLID LUG

Allows the pipe bender to be held firmly between vice jaws

4. HEAVY-GAUGE FORMERS (15mm & 22mm)

Won't lose their shape and include degree marks on the casting for 'at-a-glance' accuracy

5. FLAT EDGES TO THE BRACKET ARM

Allow the GLM to be used in workshop vice for convenient bending

6. HANDLE END STOPS WITH STEEL INSERTS

Protect user hands during bending, eliminate piercing and increase durability
