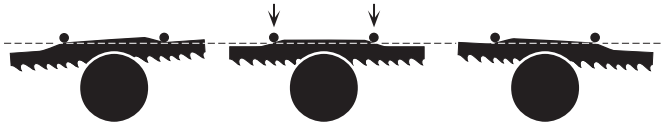
Note: Aluminum and other soft materials cut on machines with extremely high band speed may change your tooth selection. Please contact LENOX Technical Support or go to sawcalc.com for more information.

WHAT IS WAVE TECH?


This enhanced mechanical design promotes more efficient tooth penetration and chip formation, easily cutting through the work hardened zone. The WAVE TECH symbol denotes any product that can utilize the WAVE TECH process. Consult your LENOX Technical Representative to determine if WAVE TECH will benefit your operation.
