

**SAWCALC®**

## Cut Smart with SAWCALC - Web-Enabled Solution for Your Cutting Challenges

### **CUSTOMISED, ACCURATE RECOMMENDATIONS TO OPTIMISE BLADE LIFE**

Identify the right LENOX blade for the job

Determine the correct parameters to satisfy your cutting goals

### **HIGHLY TECHNICAL, ENGINEERED SOLUTIONS**

Built-in intelligence based on years of engineering experience

Over 35,000 metals and 9,000 band saws inside the program

### **FREE, EASY TO USE AND ALWAYS UPDATED**

SAWCALC is updated regularly to include the latest machines, metals, and LENOX products

**VISIT SAWCALC.COM  
TO GET YOUR RECOMMENDATION TODAY!**

### **THE LENOX GUARANTEE**

Our products are backed by the LENOX limited warranty. We warrant that our products are free from defects in materials and workmanship and that these products will perform as described under normal use and service. This warranty of quality is valid for 90 days from confirmed date of purchase. Except as expressly set forth herein, LENOX makes no other warranties, express or implied, with regard to products, and expressly disclaims any warranty of fitness for a particular purpose. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Use our products only in accordance with LENOX instructions.

### **GENERAL SAFETY TIPS**

LENOX is involved in the Voluntary Protection Program (VPP), designed to recognize and promote effective safety and health management. Our employees agree to participate in the program and work with management to assure a safe and healthful workplace under an established set of criteria. Several benefits to the VPP are the motivation to work safely, reduced workers' compensation costs and fewer lost workdays due to injuries. This all results in better quality and productivity.

We are also very concerned for the safety of the people using our products. Here are a few tips to remind you to use all safety measures to avoid any type of injury:

1. Tools can injure – handle with care.
2. When cutting through walls, be sure you're clear of electrical wires behind the wall.
3. Power tools can bind and kick back. Be sure to hold them firmly and keep yourself out of the recoil path.
4. Wear eye protection and other appropriate safety equipment when using tools.
5. Make sure ladders or staging are stable before using.
6. When using drilling accessories, a power tool with a torque limiting device is recommended.
7. Use power tools in accordance with manufacturers' instructions and recommendations for accessories.
